

Post-Operative Medication Instructions

Please follow these eye drop instructions for your upcoming surgery. If you currently use eye drops for other reasons, continue them as prescribed unless instructed otherwise by your surgeon.

- **MOXIFLOXACIN (antibiotic)**

- Apply 1 drop to the surgical eye 4 times per day
- Start **after** surgery and continue for 2 weeks

- **DICLOFENAC or KETOROLAC (non-steroidal anti-inflammatory)**

- Apply 1 drop to the surgical eye 4 times daily
- Start **after** surgery and continue until gone

- **PREDNISOLONE ACETATE (steroid anti-inflammatory)**

- Apply 1 drop to the surgical eye 4 times per day
- Start **after** surgery and continue until gone
- Shake well prior to each use

Space multiple doses of the same drop evenly throughout the day. Wait at least **5 minutes** between applications of different drops.

Eye drops should be ready for pickup at your pharmacy within 24 hours of your pre-operative nurse phone call from the AEC Surgery Center.

Call our **Nurse Call Line** at **651-275-3112** for questions. Please leave a voicemail and we will return your call within 24 hours or the next business day.

PLEASE BRING ALL EYE DROPS TO YOUR SURGERY AND CLINIC APPOINTMENTS
